MOVE TO CLOUD, MAKE USERS
HAPPY, SAVE MONEY: IN WHAT
ORDER?

MAY 9, 2023

PeopleSoft

RECONNECT

AT BLUEPRINT4D

LIVE!

Gideon Taylor 2023 Presentation Schedule

Session Name	Session #	Day & Time	Presenter	Co- Presenter	Description
Great Ways for Users to Navigate Today's PeopleSoft	103250	May 8, 4:30PM	Holger Noreke		Learn how to quickly leverage delivered functionality to make PeopleSoft efficient, modern and more engaging for users. PeopleSoft has delivered so many shiny new features, are you taking advantage of them to improve your users' experience?
Cloud, SaaS, PeopleSoft, and You: Preparing for What's Next	103230	May 9, 10:15AM	Paul Taylor		In today's market, organizations have options on whether/how/when to move to the Cloud. Some are reimplementing to new SaaS solutions; others are optimizing PeopleSoft and lifting their existing ERP/HCM to the Oracle Cloud Infrastructure; and others are choosing to integrate Cloud-based solutions with their on-premise PeopleSoft applications.
PeopleSoft in the Cloud: Building a Bridge to What's Next	103240	May 9, 11:30AM	Paul Taylor		It doesn't take an "Oracle" with a crystal ball to tell you that the Cloud is in your future. It almost certainly is.
AI Cage Fight! Gideon Taylor's Ida vs. ChatGPT! (Theater Session in Exhibit Hall)	109430	May 9, 12:35PM	Andrew Bediz	Paul Taylor	OpenAI's ChatGPT has wowed the world, disrupted industries, and inspired millions with fresh ideas of what artificial intelligence can accomplish in the real world. And hey, we admire ChatGPT as much as anyone - but as purveyors of the premier enterprise chatbot solution, Ida, brought to you by our IntraSee team, we're pleased to inform you that there's gonna have to be a smackdown!!
Move to Cloud, Make Users Happy, Save Money: In What Order?	103270	May 9, 3:30PM	Paul Taylor		When starting a digital transformation, it is best to know why you're doing it. Is moving to the Cloud a means to an end, or an end in itself? In this session we'll take a hopefully sober, and likely sobering look at outcomes you can expect when you put these three objectives in various orders.
Prologis is Totally Owing PeopleSoft Workflow (and you can too!) Building custom eForms to Transform the Supplier Self-Service Experience	103200	May 10, 11:15AM	Kyle Hupf	Paul Taylor	Have you ever wondered if there was a better way to include someone outside your organization in your PeopleSoft workflow? Whether this involves new employees filling out pre-hire onboarding forms, external vendors managing their own account data, or parents approving financial aid documents, all of these can benefit from having secure access to certain PeopleSoft pages and applications.
5 Great Ways to Supercharge PeopleSoft	103110	May 10, 4:00PM	Holger Noreke		Hang on to your hats! You're in for a quick spin around some of the greatest features PeopleSoft has to offer. If you're not using them already, you really should be! We'll take you through a tour of the following technologies and features, what they can do for you, and

Some of our Clients...

GT eForms™ - Validated PeopleSoft
Automation Solution

So, should a cloud
move be top
Priority?

CONVENTIONAL WISDOM: ALL YOU NEED IS CLOUD

"You should already be there; if you're not on a Cloud-based SaaS platform, you're behind."

"Moving to the Cloud will fix my business processes and user experience."

CLOUD!

Cloud-based,

Cloud-enabled,

Cloudy
Clouddiness

"Moving to the Cloud will save so much money!"

"Any investment in your current platform is a waste."

"Cloud Apps use Best Practices, which are better than our way."

WAIT, WHAT FLAVOR OF "CLOUD" ARE WE TALKING ABOUT?

SaaS - Software as a Service
Someone else's software instance

PaaS - Platform as a Service
Build and run solutions using rented tools

IaaS - Cloud Hosted
Someone else's data center

Subscription Licensing
Rent the software

Managed Services
Someone else operates, maintains, and fixes stuff

Everybody has
their own journey.
- Thalia

A green circular icon containing a smiling face wearing sunglasses, centered within a light green rounded rectangular box.

**How about user
joy? Most
important?**

But what is it that is making this smiling user happy? What do these mythical beings really want? (And not want?)

PeopleSoft

WHAT USERS LIKE

- Being productive
- Making a difference
- Clarity
- Consistency
- Being considered
- Being successful

WHAT **DON'T** USERS LIKE

- Stress
- Ambiguity
- High-repetition tasks
- Low-value tasks
- Stagnation
- Failure
- Change

**Isn't money the
bottom line? By
definition?**

'Saving money' looks at only one side of the coin. (Pun intended.)

We need to think about the financial return on the decisions we make. (ROI)

TO IMPACT THE BOTTOM LINE, WE CAN...

OR

Help Bottom Line

DIGITAL TRANSFORMATION

What Users Like

Reduce Expenses

Reduce Staff

Delay Spending

Reduce High-repetition tasks

Being productive

Consideration / Engagement

Reduce Low-value tasks

Drive Revenue

Attract Customers

Improve Performance

Making a difference

Success

Progress

Low Stress

No Change

SO WHICH COMES FIRST...

Digital Transformation, or

Replatforming on SaaS?

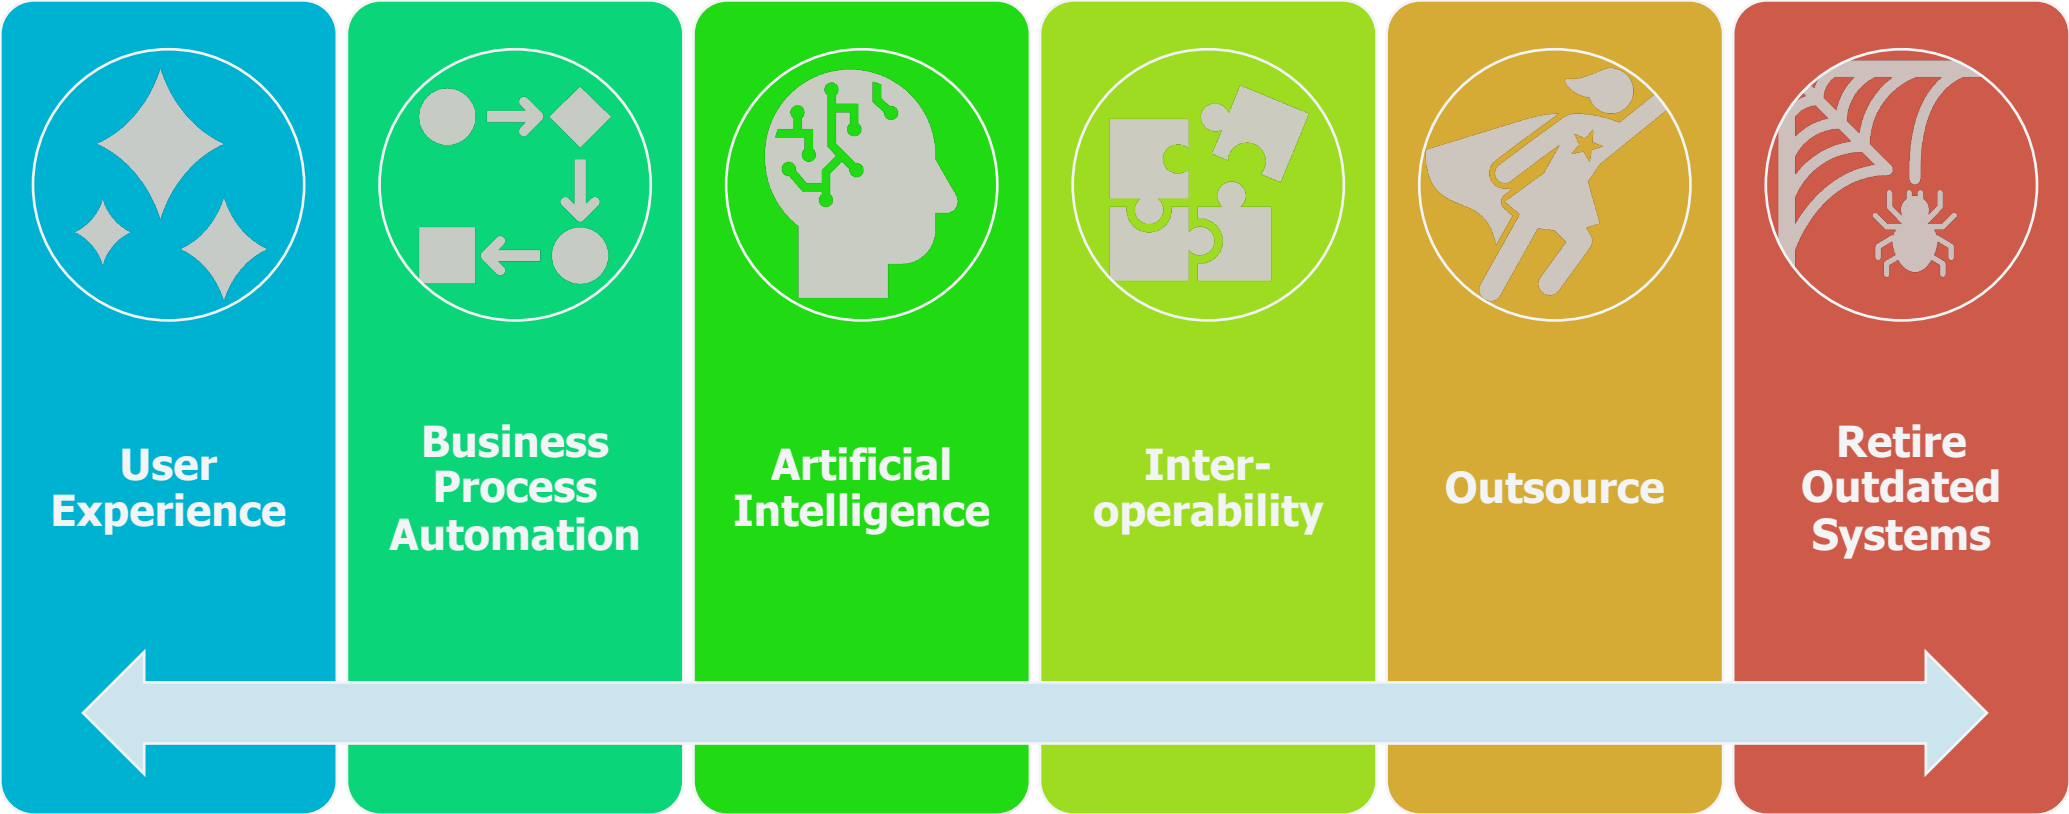

PeopleSoft

RECONNECT

AT BLUEPRINT4D

LIVE!

Can Digital Transformation Happen Before SaaS?

WHEN SHOULD YOU MOVE TO SAAS?

Risk ↑

Too Soon

- Immature Platform
- Skilled Resource Shortage
- Herd Mentality
- Must Jettison Innovation to Move
- Bleeding Edge Premium
- No Path Off the New Platform

Just Right

- Platform Parity
- Trained and Invested Workforce
- Architect Mentality
- Plan for Uninterrupted Innovation
- Commodity Discount
- Beaten Path On, Viable Path Off

Too Late

- Stagnant Platform
- Skilled Resource Shortage
- Dinosaur Mentality
- Culture of Innovation has Died
- Escalating Costs
- No Path Off the Old Platform

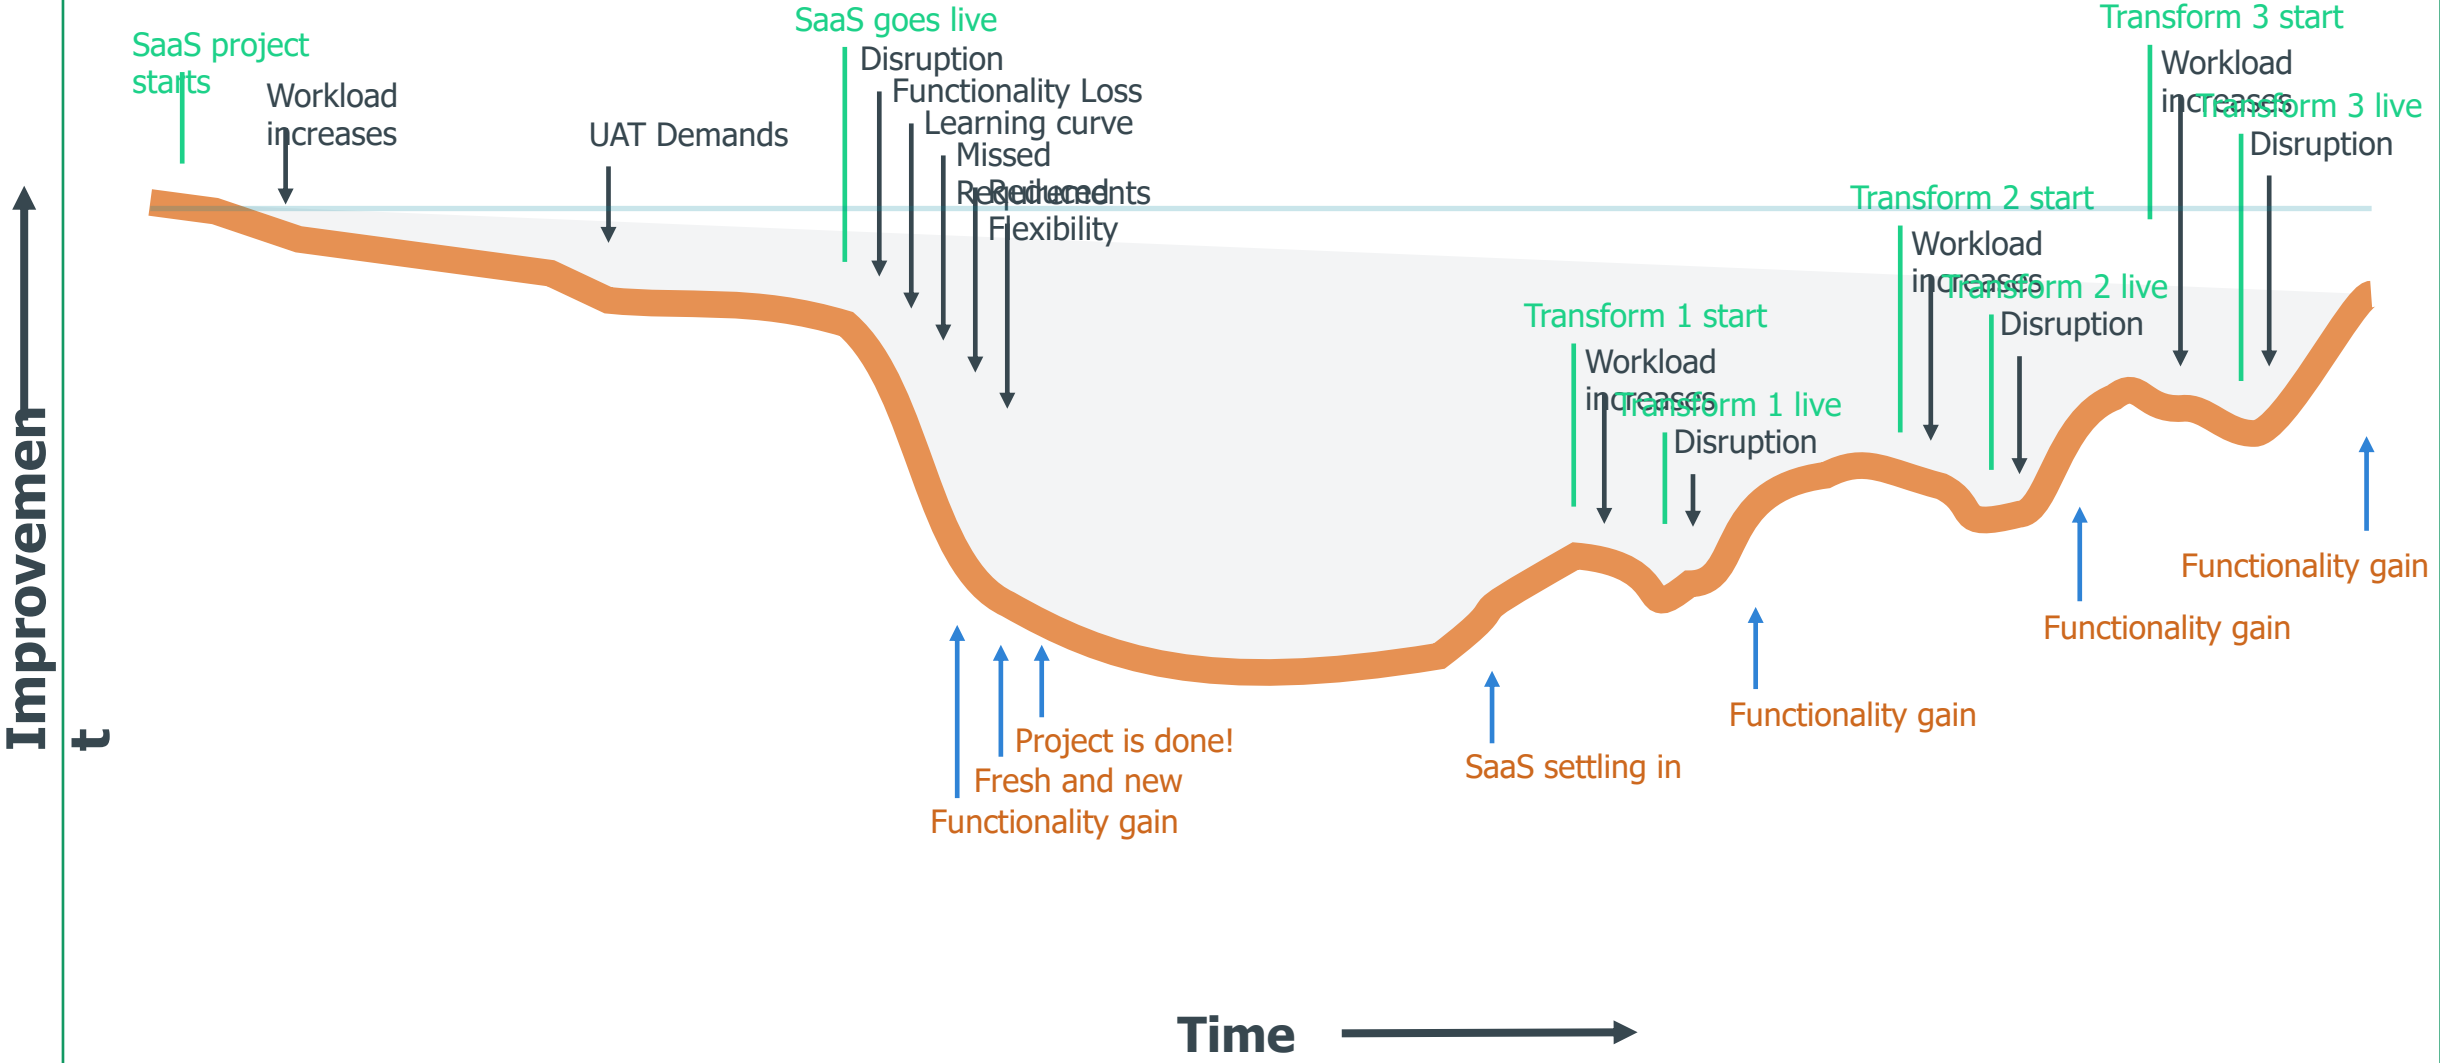

Time →

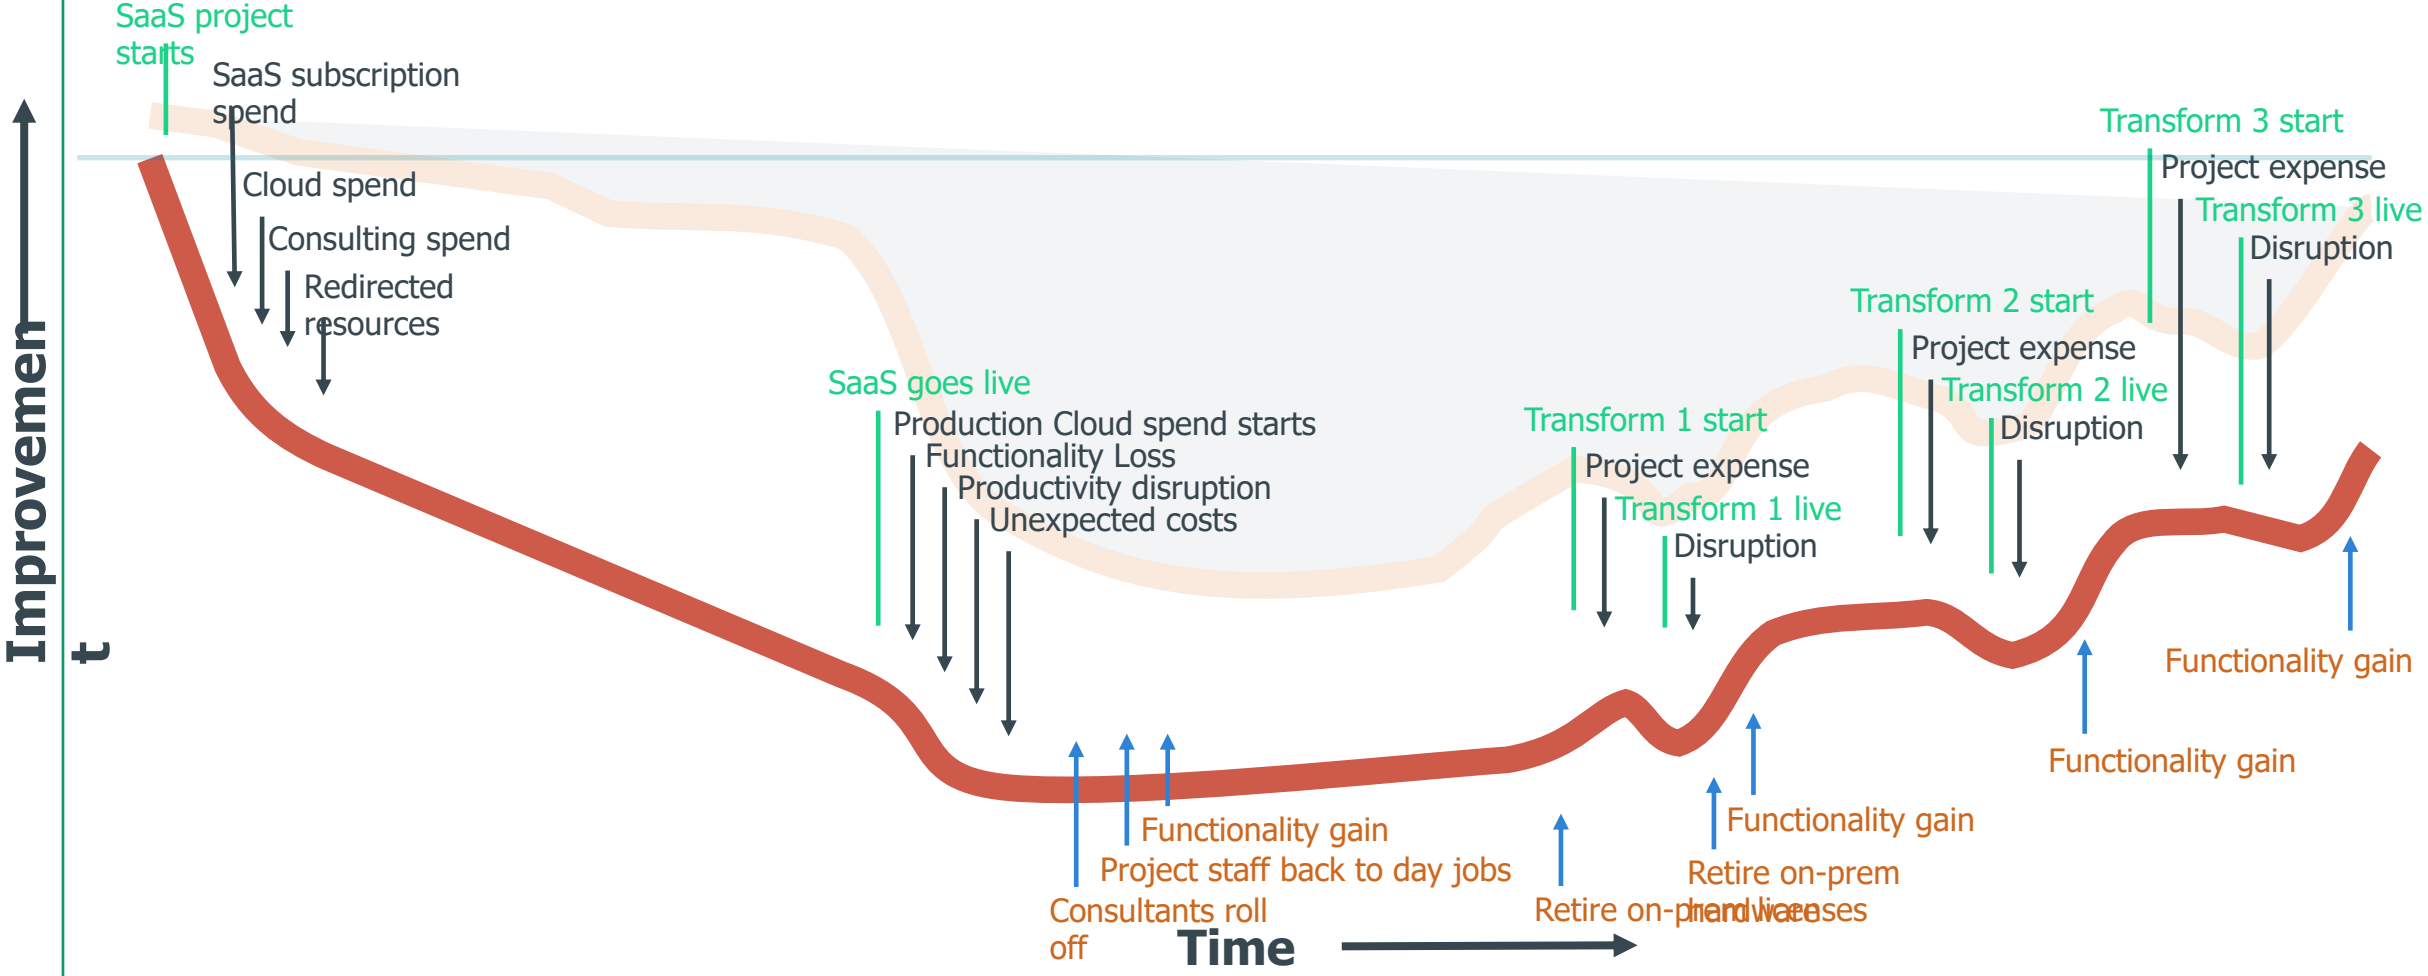

Let's just wait. On everything.

Okay then, replatform on SaaS first.

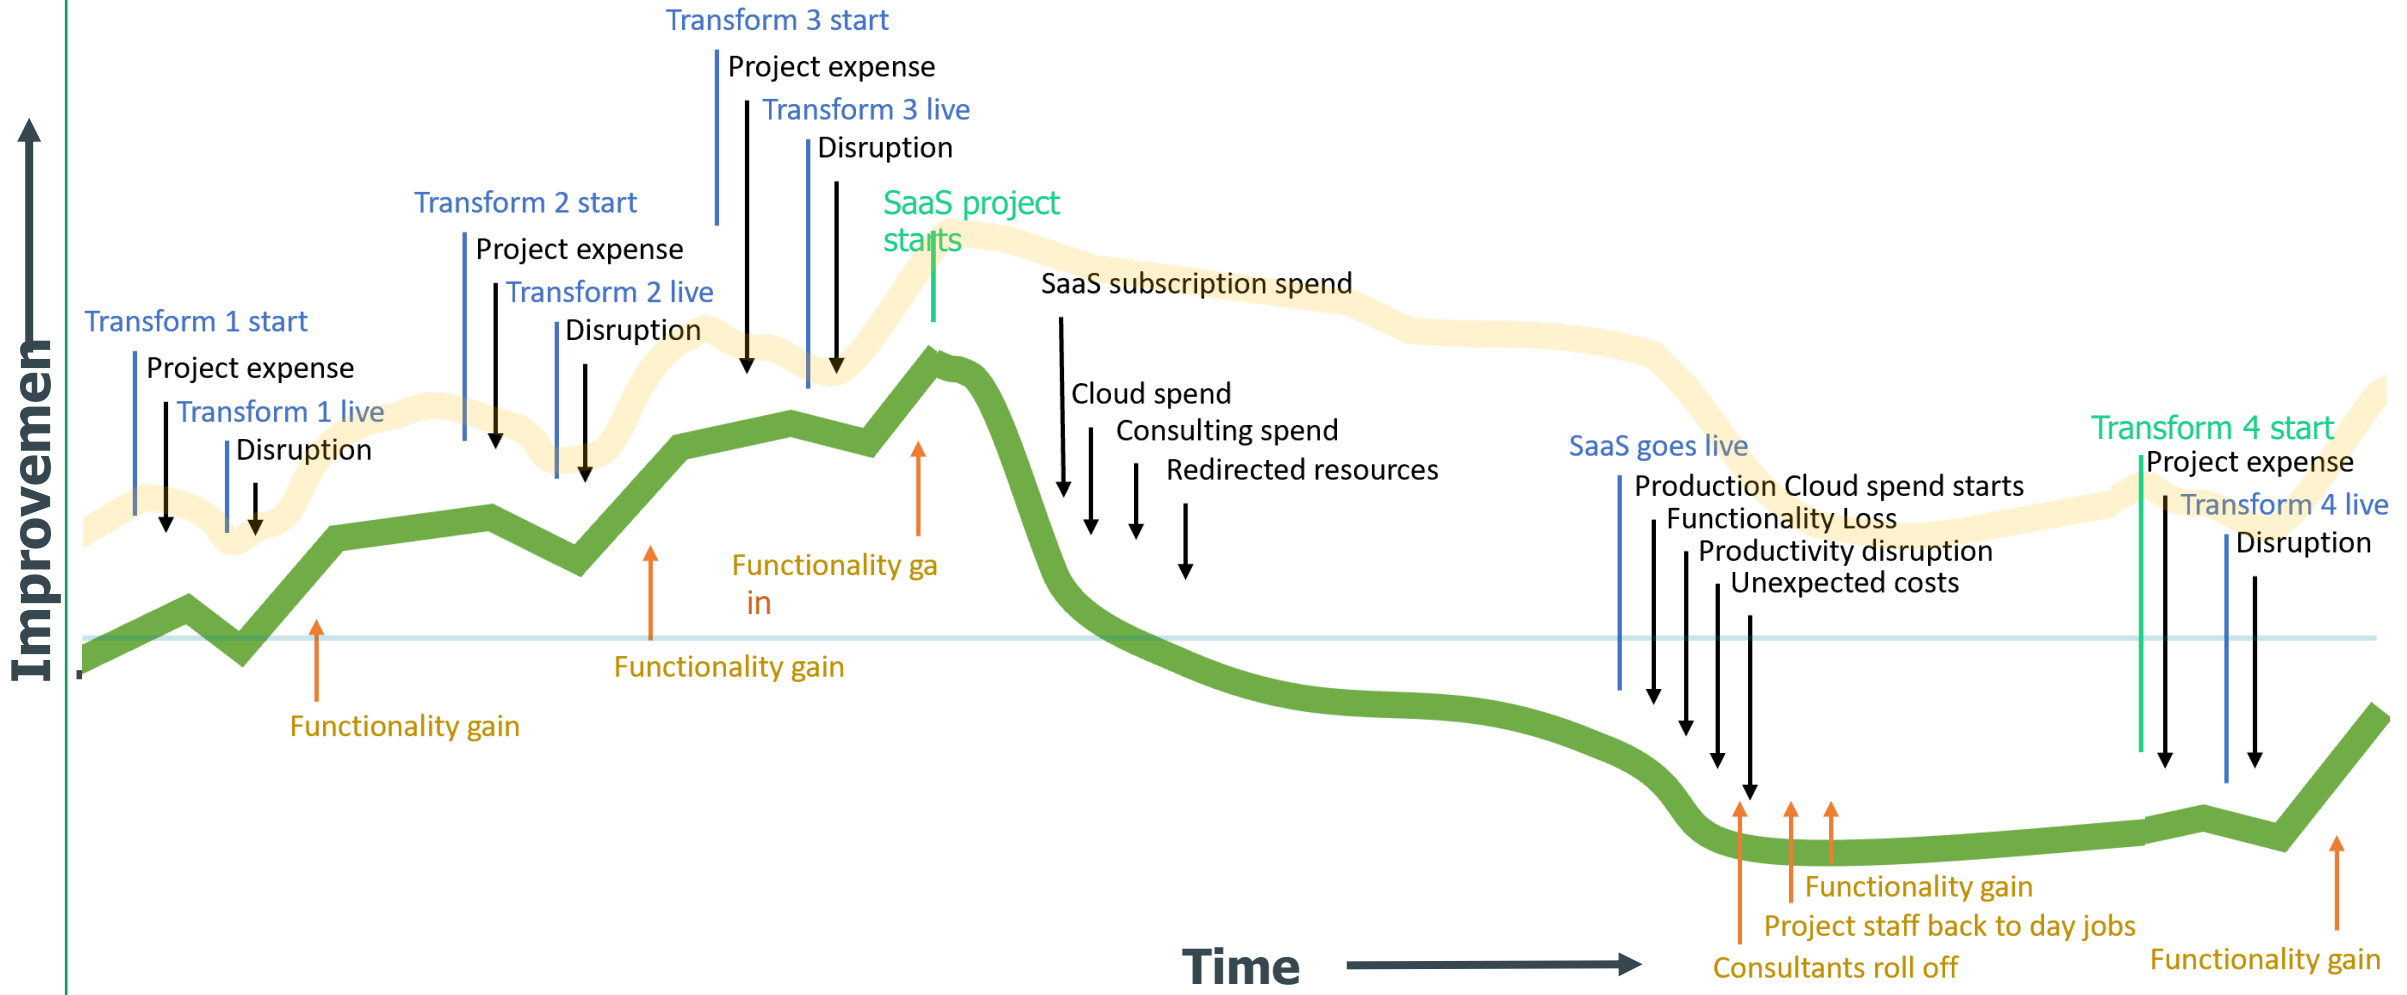

Okay then, replatform on SaaS first.

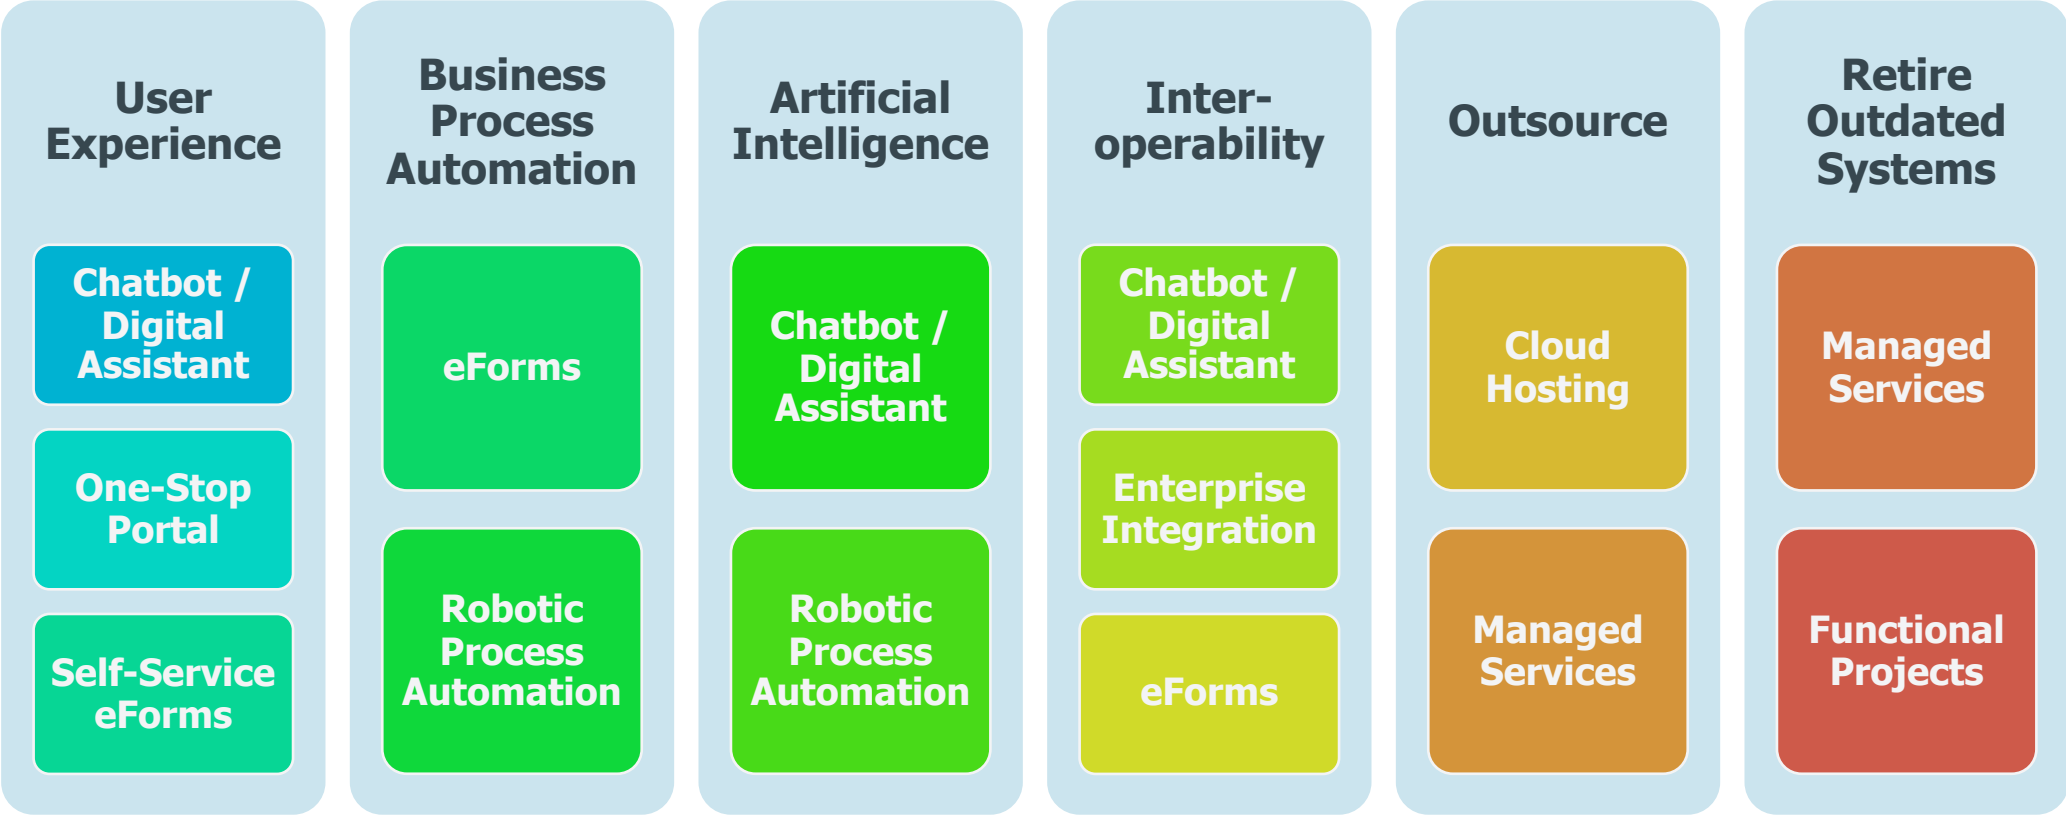

Um, okay, transformation first then?

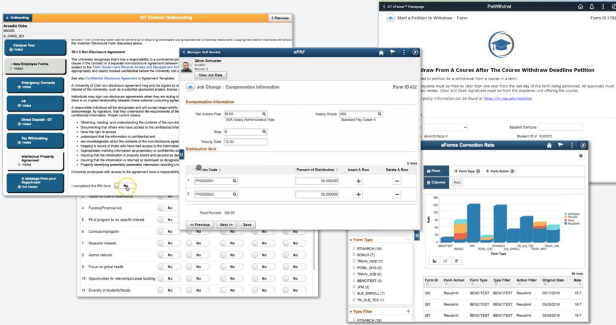

Um, okay, transformation first then?

Alternative Wisdom: Focused, Portable Tools & Solutions

Powerful Tools for Custom Automation

GT eForms™

Configuration-based form creation

Native ERP integration

Configurable routing, notifications

Attachment management

Edits, validations

Conditional logic

Ida Digital Assistant

Enterprise-grade digital assistant

Uses machine learning AI

Built on Oracle's AI and Cloud

Multi-channel capable (Web, Teams, SMS)

Role-specific & personalized answers

Pre-built catalog of questions/skills/integrations

UiPath™

UiPath

Robotic Process Automation

Simulates Human Actions

Quick to implement

Enterprise scalability

Fills in forms, Moves files,
Reads & enters data, Opens & sends
emails

Transforming and Extending the Peoplesoft Experience with GT eForms

ORACLE
Validated Integration
PeopleSoft

North Dakota University System

Enrollment: 55,000 across 11 campuses

Key Achievements:

- Went live with over 120 new Campus Solutions eForms in July – Largest single go-live ever
- Dozens more on the roadmap for HCM and CS
- Little to no GT assistance

University of CA, Berkeley

Enrollment: 45,000

Key Achievements:

- **2019 PeopleSoft Innovator Award** for rapid Fluid deployment using eForms
- Dozens of student and faculty eForms
- Thousands of person hours saved each year

Los Rios Community College

Enrollment: 70,000 across 4 colleges, 6 education centers

Key Achievements

- Creating eForms in HCM and CS; over 100 form types planned
- Initial scope replaced 9 PS Forms with GT eForms
- Over 50,000 eForms initiated in the first 90 days

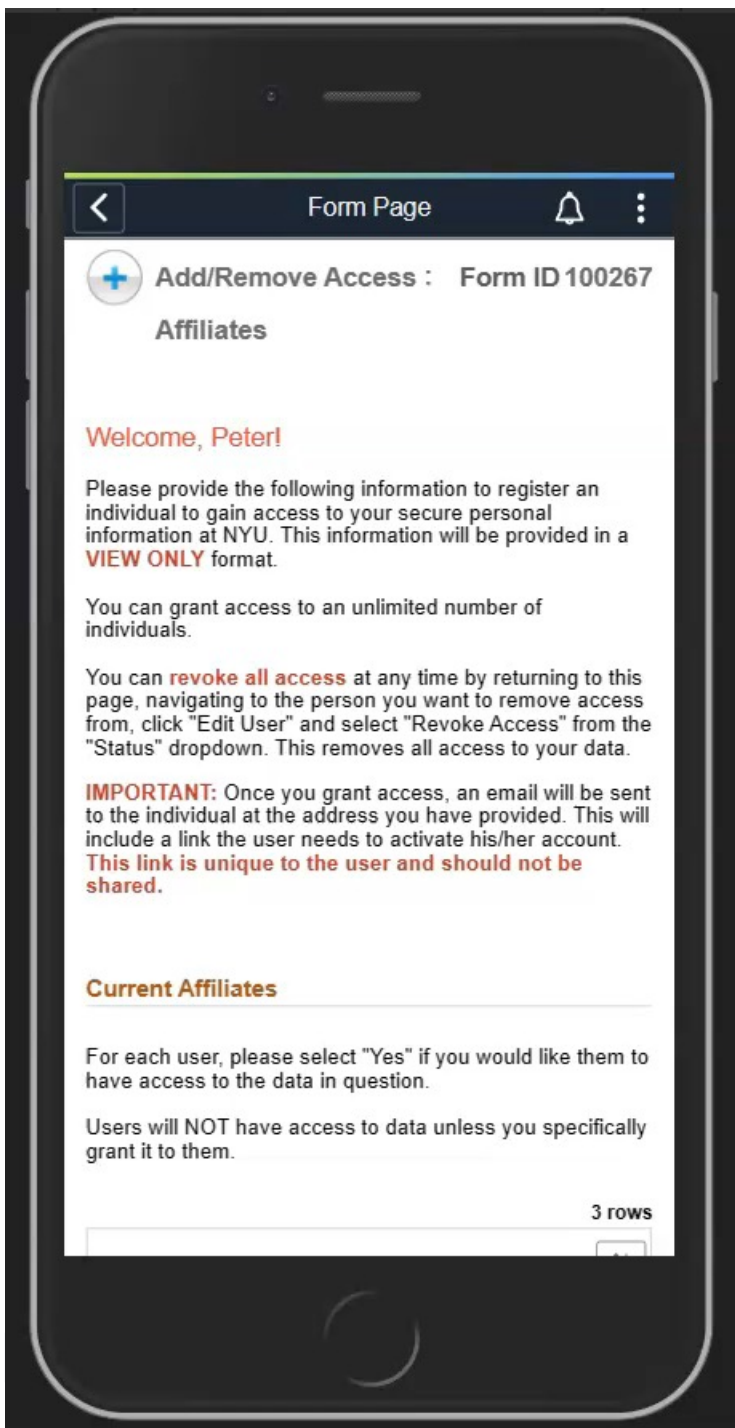

Princeton University

Enrollment: 8,600

Key Achievements:

- Creating eForms in HCM and CS
- Created and launched 16 new eForms in 90 days
- **COVID-19:** Design to Production with two student eForms in less than 24 hours

Transforming and Extending the Peoplesoft Experience

ORACLE
Validated Integration
PeopleSoft

IMPLEMENT & UPGRADE

Battelle Savannah River Alliance

Department of Energy
Company using PS HCM, FSCM

Key Achievements:

- Divested from Savannah River National Site
- Stood up independent instance of PeopleSoft
- Upgraded Tools and Image
- Developers retrofitted customizations needed

OPTIMIZE & SUPPORT

Apex Systems

Leading staffing organization
with PS HCM, FSCM

Key Achievements:

- Over 10 years of PeopleSoft enhancements, upgrades, and production support
- Executive road mapping and evaluations for systems strategy
- Ongoing implementations of new modules and image features

MODERNIZE

Grady Health

Largest Health Provider in
Atlanta, GA

Key Achievements:

- Modernized position control and recruiting system using PS Fluid and integration technology
- Self-service benefits administration with modern UI and mobile access

MOVE TO CLOUD

Wex

Fleet payment processing
services

Key Achievements:

- Move development, test and production environments to cloud hosting
- Upgrade PS FSCM to v9.2

GT eForms™ – Unparalleled Automation

ORACLE
Validated Integration
PeopleSoft

Build Configuration-based Custom Fluid Solutions

Configuration-based Form creation

Pre-Population

Conditional form behavior

Restricted valid values

Bulk actions

Attachment management

Configurable routing

Full PeopleSoft security

Edits & validations

Reporting & analytics

Transformative Results

 700% Efficiency Increase

 Turnaround reduced from 5 days to 30 minutes

 Reduced manual intervention & errors to less than 1%

 Saved over 90% of time for new employee onboarding

 Direct year-on-year ROI over \$300,000

Empowering Users Through Mindful Automation

Auto-population and intelligent defaulting ensure accuracy, increase speed, and reduce the amount of data required of the user

Easy access to forms, form status and form data empowers users with on-demand information and reduces calls to the help desk

Related displays provide meaningful information to the user

Conditional routing and email notifications ensure compliance and accelerate turnaround

Restricted prompt values simplify choices and remove opportunities for error

Conditional logic guides the user, hiding complexity and reducing need for training and documentation

Field attributes and form layout define an intuitive user experience

MEET IDA

INTRASEE'S DIGITAL ASSISTANT

- Enterprise-grade digital assistant
- Uses machine learning AI
- Built on Oracle's AI and Cloud
- Scalable to thousands of questions in over 100 languages
- Authenticated and non-authenticated chats
- Multi-channel capable (Web, Teams, SMS, etc)
- Pre-built catalog of questions/skills/integrations
- Integration adapters such as PeopleSoft, HCM Cloud, Microsoft, ITSM, LMS
- Add questions, answers and topics
- Conversational satisfaction surveys
- Role-specific & personalized answers
- Alerts, nudging and suggestions
- Automated deployment and testing (no expensive staffing/consulting!)
- AI that gets smarter over time

Transforming and Extending PeopleSoft

ORACLE
Validated Integration
PeopleSoft

The UNIVERSITY of OKLAHOMA Health Sciences Center

- Built integrated platform using GT eForms for managing complex grant approval process.
- Measurable improvements in accuracy, efficiency, and user experience.
- GT eForms is a powerful, custom Fluid application builder, created entirely with PeopleTools to extend PeopleSoft.

Seneca

- Sam, Seneca's new assistant, has completed over 100,000 user-support needs in just the past 12 months.
- Ida leverages the power of Oracle Digital Assistant
- Generated over \$2 million USD in ROI opportunity by decreasing per-transaction cost from \$19.00 to \$1.00 per session.
