Accuracy is King

- NLP accuracy is the most overlooked feature
- All bots are not created equal
- Rules-based vs. Machine Learning
- Nothing else matters if users don't trust the accuracy

“Ida” – A Chatbot for Everyone

- Enterprise-grade digital assistant
- Uses machine learning AI
- Built on Oracle’s AI and Cloud
- Scalable to thousands of questions in over 100 languages
- Authenticated and non-authenticated chats
- Multi-channel capable (Web, Teams, SMS, etc)
- Pre-built catalog of questions/skills/integrations
- Integration adapters such as PeopleSoft, HCM Cloud, Microsoft, ITSM, LMS
- Add questions, answers and topics
- Conversational satisfaction surveys
- Role-specific & personalized answers
- Alerts, nudging and suggestions
- Automated deployment and testing (no expensive staffing/consulting!)
- AI that gets smarter over time

IntraSee WebUX

Building easier to use, one-stop shops in the PeopleSoft ecosystem.

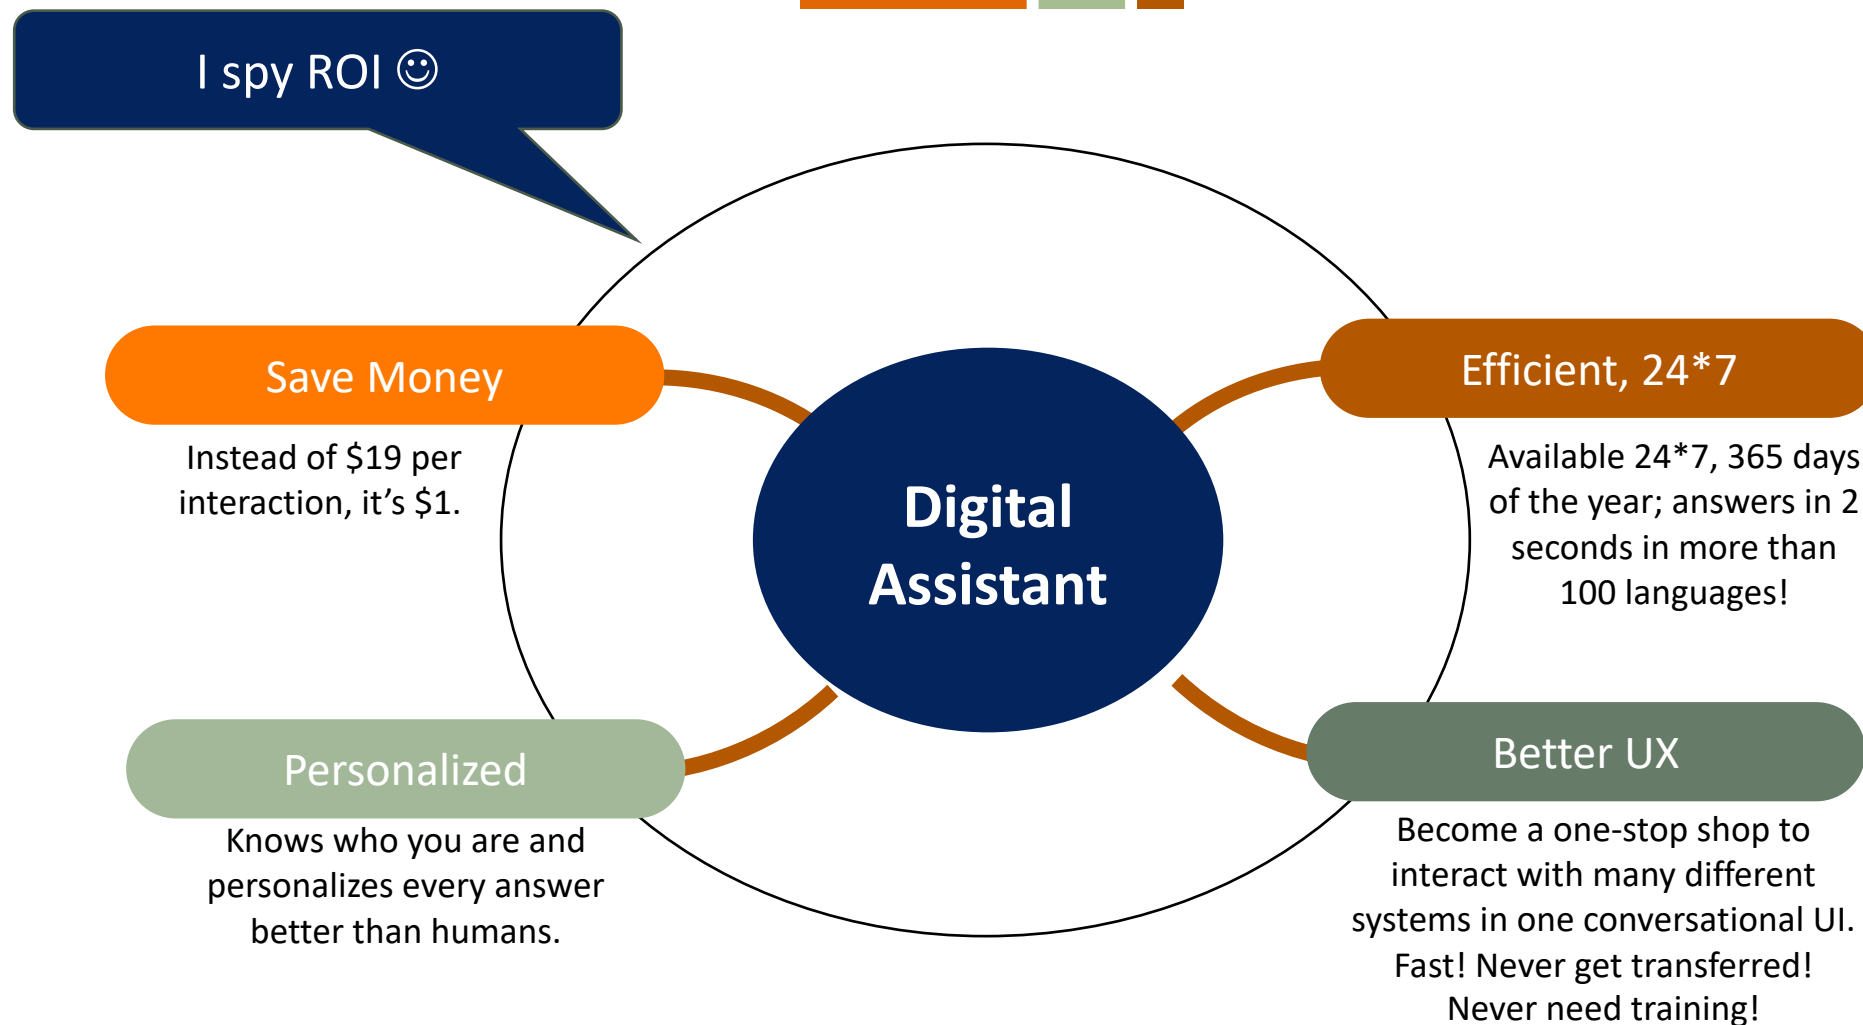

- Student / Faculty / Advisor Portals
- Pre-built Experiences
- Bespoke Experience
- Enterprise Integrations (one-stop)
- No new technology stack
- Cloud/SaaS options
- Real-time personalization
- Advanced web analytics
- Mobile experiences
- Fluid/Kibana/Search integration
- Focus groups & user-centered design

The image displays three overlapping screenshots of the my.HARVARD web portal. The top screenshot shows a course search interface with filters for Term (2015 Fall), School, Subject, Department, Meeting, Content, and Competency. It displays a calendar view for Fall 2014, Spring 2015, and Fall 2015, with course sections like ECO 101 - L01 and HIS 104 - C01. The middle screenshot shows the 'Student Financials' page with a navigation sidebar (My Financials, Student Account, Budget) and a main content area containing alerts, a student account summary table, and a term summary table. The bottom screenshot shows the 'WAVENET' interface with a news headline, a shopping cart for 2017 Fall, and a table of enrolled courses for 2017 Fall.

Value Proposition

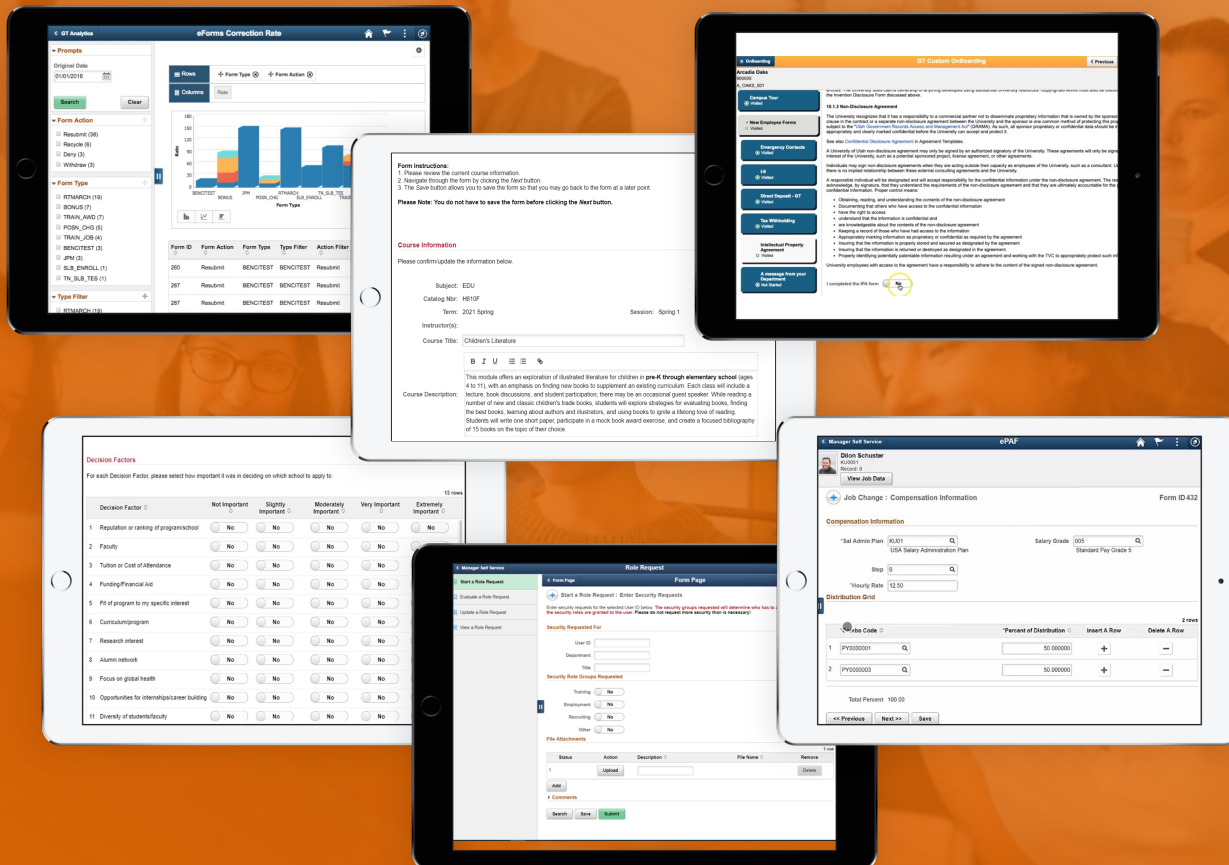

Here a Form. There a Form. Everywhere an eForm.

GT eForms™ – Unparalleled Automation

ORACLE
Validated Integration
PeopleSoft

Build Configuration-based Custom Fluid Solutions

Configuration-based Form creation

Pre-Population

Conditional form behavior

Restricted valid values

Bulk actions

Attachment management

Configurable routing

Full PeopleSoft security

Edits & validations

Reporting & analytics

Transformative Results

700% Efficiency Increase

Turnaround reduced from 5 days to 30 minutes

Reduced manual intervention & errors to less than 1%

Saved over 90% of time for new employee onboarding

Direct year-on-year ROI over \$300,000

Transforming and Extending the Peoplesoft Experience with GT eForms

ORACLE
Validated Integration
PeopleSoft

North Dakota University System

Enrollment: 55,000 across 11 campuses

Key Achievements:

- Went live with over 120 new Campus Solutions eForms in July – Largest single go-live ever
- Dozens more on the roadmap for HCM and CS
- Little to no GT assistance

University of CA, Berkeley

Enrollment: 45,000

Key Achievements:

- **2019 PeopleSoft Innovator Award** for rapid Fluid deployment using eForms
- Dozens of student and faculty eForms
- Thousands of person hours saved each year

Los Rios Community College

Enrollment: 70,000 across 4 colleges, 6 education centers

Key Achievements

- Creating eForms in HCM and CS; over 100 form types planned
- Initial scope replaced 9 PS Forms with GT eForms
- Over 50,000 eForms initiated in the first 90 days

Princeton University

Enrollment: 8,600

Key Achievements:

- Creating eForms in HCM and CS
- Created and launched 16 new eForms in 90 days
- **COVID-19:** Design to Production with two student eForms in less than 24 hours

Where Do We Start?

Student Life

- Housing checkout
- Incident reporting
- Disciplinary cases
- Personal data
- Surveys/questionnaires
- Athlete certifications

Financial Services

- Financial aid forms
- Scholarship applications
- Refund requests
- Emergency loans
- Document uploads

Student Services

- Class add / drop
- Change of major / minor
- Grade change requests
- Transfer credits
- Student withdrawals / LOA
- Curriculum management
- Official letter requests

Administrative Services

- Personnel actions
- Onboarding/offboarding
- Leave / FMLA requests
- Policy acknowledgements
- Chartfield maintenance
- Journal vouchers
- Expense reporting
- Supplier self-services
- Access requests

Kibana – Introduction

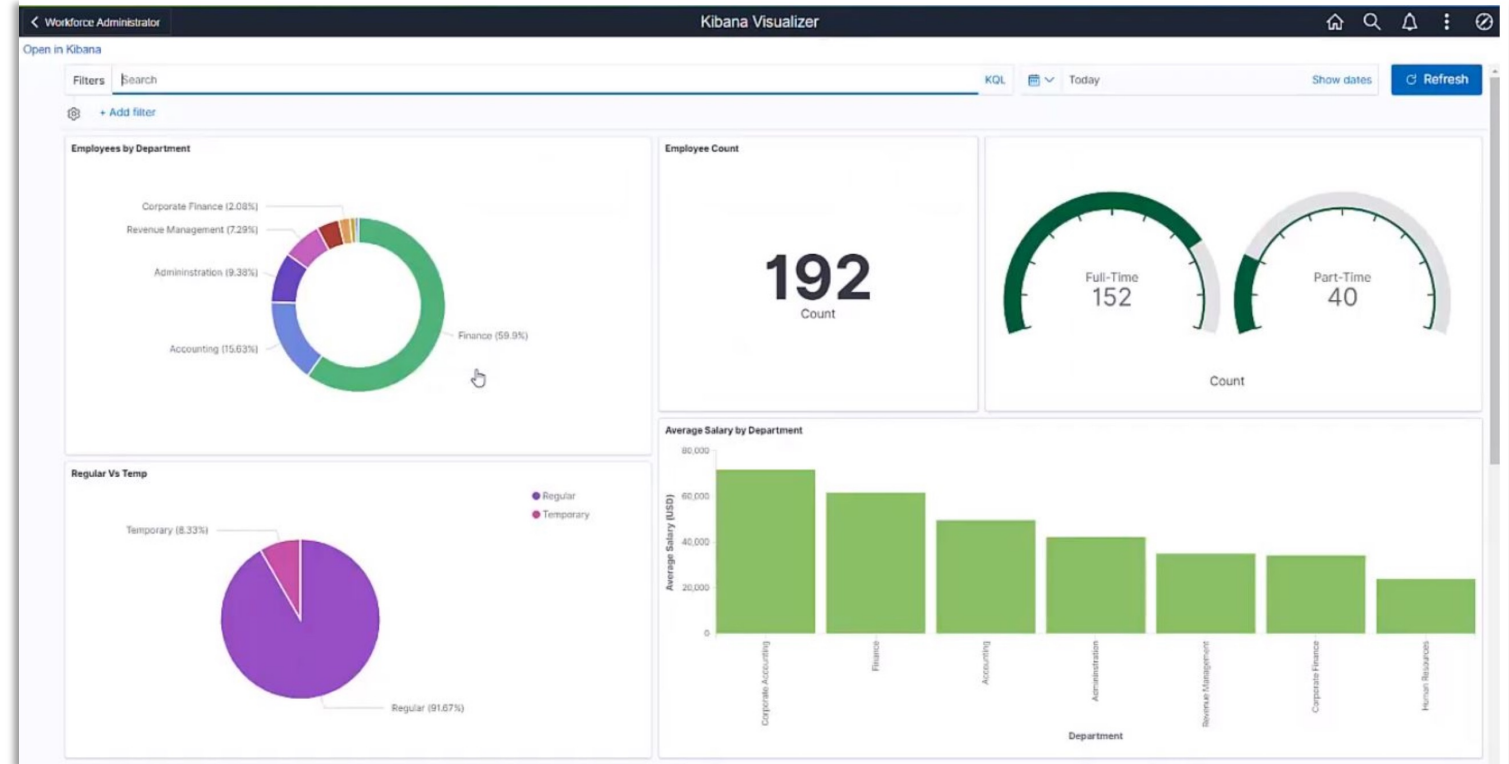

Q: What is Kibana?

A: Kibana is a performance-friendly visualizer for PeopleSoft application data. Powered by Elasticsearch indices, organize large volumes of analytical data in a wide variety of visualization styles on homepages and dashboards without sacrificing transactional database performance.

Q: When did it become available?

A: Requires PeopleTools 8.58

- PUM Images on 8.58 include delivered visualizers for immediate use

Transformative Results

700% efficiency increase - State of Tennessee is now able to process as many benefits enrollment forms in one hour as they used to do in an entire day

Reduced turnaround time **from 5 days to less than 30 minutes** – from submission through final updates to PeopleSoft (Xcel Energy)

75% decrease in total human effort associated with forms processing (University of Florida)

Manual intervention and error rates dropped **from 45% to less than 1%** (Xcel Energy)

A reduction of more than 93% in time required to prep and facilitate employee onboarding processes (Questar Corporation)

Over 10,000 form actions processed each week without manual intervention or error (ShopRite Stores)

ROI of more than **\$300,000 year-on-year** (University of Florida)
